

Pole Operated Yoke Bar Studio Cool 2x55W & 4x55W

Reference: LFA-YBPOST4X55

- Two axis pole operation for Studio Cool 2x55W & 4x55W
- Adjusts the lamphead orientation (pan & tilt)
- Strong metal frame design

Product description:

Metal yoke bar for Studio Cool 2x55W and 4x55W (both ON/OFF and DMX models) for two axis operation of the fixture using a pole rod.

Allows for easily adjusting the lamp head orientation (pan & tilt) from the floor when the Studio Cool is mounted high above, typical for studio setups.

The orientation axis are color coded for quickly identifying the desired moving direction.
