Product description:

Convenient, low profile LED lighting kit designed for both studio and location work. Photographers and videographers would appreciate the flexibility of these LED mats on most lighting setups.

The basic kit configuration includes 1 x CineFLEX "L" 100W Bi-Color, 1 x CineFLEX "XL" 150W Bi-Color, 1 x CineFLEX "4FT" 100W Bi-Color, 3 x air-cushioned light stands as well as individual transport bags for the lights and one carrying bag for the light stands.

Optional accessories like extension cables, softboxes, diffuser domes and touch screen remote

are available to furthermore increase the versatility of this 3-point lighting kit.
