- 2 x Acrylic diffusion filter
- 2 x Wireless remote control
- 1 x Cordura transport bag
- 2 x Light stand 260 cm
- 1 x Light stands transport bag

Product description:

We recommend this portable LED lighting kit to location photographers and videographers who seek for a compact yet powerful LED kit configuration, perfect to be used where the AC power source is limited or unavailable.

The basic kit configuration includes 2 x CineLED EVO 150W Bi-Color LED panels, 2 x air-cushioned light stands with carrying bag and a Cordura transport case for convenient handling and storing all the kit's components. Optional accessories like honeycomb grids and softbox kits are available for the CineLED EVO 150W panels.
