

Pole Operated Yoke - GEM 200

Reference: LLA-YOKEPOGEM200

- Two axis controls: pan & tilt
- Fitted with 28mm spigot
- For CineLED GEM 200

Product description:

Two axis pole operated yoke bar for CineLED GEM 200 studio LED light.

Allows for easily adjusting the lamp head orientation (pan & tilt) from the floor when the CineLED lights are mounted high above, typical for studio setups.

The orientation axis are color coded for quickly identifying the desired moving direction.

The "U" yoke is fitted with an 28mm spigot and is made of metal alloy.
