

Light Stand 3.00 m - Stainless Steel (HD)

Reference: SSB-BSTAND300CMSS

- Payload: 15 Kg
- Maximum height: 300 cm
- Folded length: 100 cm
- Mounting: welded long neck spigot 16mm
- Leveling leg
- Material: stainless steel

Product description:

Heavy duty baby stand made from stainless steel to sustain heavier lighting fixtures, ideal for location assignments.

The chrome-plated square-end legs with wide base offer a stable support. The stand features a leveling leg or a "rocky-mountain" leg to stabilize the load on uneven terrain.

The legs can be quickly retracted by loosening the T-handle on the top collar and pulling up. The 16 mm spigot stud is welded inside the steel tube for maximum mechanical performance.

Thanks to the double handles on the spider casting, the stand becomes more stable when lowering the central column on to the ground.

The stand is assembled using bolts instead of rivets for simpler maintenance and features captive lock offs thread into rust free steel inserts.

The scratch resistant chromed finish prevents oxidation and gives the stand a more polished look that is easier to blend into the outdoor daylight shootings.

Compatible with:

- Blondie 2000W
- Fresnel Junior 650W / 1000W / 2000W
- Studio Cool 2x55W / 4x55W / 6x55W
