

# Light Stand 410 cm

Reference: SSB-BSTAND410CM

- Payload: 5 Kg
- Max height: 410 cm | Min height: 142 cm
- Versatile tall aluminum light stand
- Long neck 16 mm mounting spigot (5/8" stud)
- Material: aluminum

## Product description:

Versatile tall aluminum light stand with long neck spigot 16 mm designed to support lighting fixtures and studio equipment up to a 5 kg load.

The stand rises to a maximum height of 410 cm and folds down to 142 cm.

For a safe operation, the stand must be used with a sand bag to stabilize the base.

The stand's columns are spring-loaded to protect the mounted equipment against accidental collapsing by absorbing the shock.

Black anodized finish of the stand eliminates any unwanted reflections, making it suitable also for studio applications.

\*NB: The maximum payload is rated for the stand columns half-extended.

## Technical Specifications:
