- Payload: 40 Kg
- Maximum height: 340 cm
- Folded length: 134 cm
- Mounting: combo 5/8" pin & 1-1/8" receiver
- Material: steel

Product description:

This versatile heavy duty combo stand is suitable for supporting heavy fixtures at a lower distance from the ground, comparing to other combo stand versions A 40 kg weight fixture can be positioned anywhere between 148 - 340 cm in height, to match the studio requirements.

The combo stand features a dual mounting function: 5/8" (16 mm) stud and 1-1/8" (28 mm) receiver in order to fit any type of lighting fixture or studio accessory with baby or junior mount.

The double braced legs ensure a good stability and support. The combo stand also features a leveling leg or a "rocky-mountain" leg used to lean the stand or to level the stand on uneven ground.

The stand's central column can be positioned to rest directly on the ground, taking over most of the load.

The combo stand is assembled using stainless steel bolts instead of rivets for simpler maintenance. All of the stand's knobs are aluminum made and threads are riveted to prevent any loosening.

The scratch resistant chromed finish prevents oxidation and gives the stand a more polished look that is easier to blend into the outdoor daylight shootings.

Product features:

Weight: 8.3 kg
Stand type:: Combo stand
Mounting: Stud 16mm (5/8") & Receiver 28mm (1-1/8")
Maximum height: 340 cm
Minimum height: 148 cm
