- Cooling air vents and anti-slip edges
- Tray size: 42 x 30 cm

Product description:

Studio laptop tray designed to fit most notebook models up to 17" or any other devices fitting into tray size of 42 x 30 cm.

The tray comes with a removable mouse pad support with soft texture which can be installed on both sides.

To be mounted on a light stand, a spigot 16 mm receiver with tilting function is included, also allowing to adjust the tray angle as needed.

The raised edges of the tray prevent the device slipping over and the air vents ensure an efficient cooling.

It is a handy accessory to have it in a studio or on location especially for those who shoot and need to monitor in real time the captured images. Also can serve as a basic support table for accessories.

- Black mate finish
- Weight: 1.2 kg
