

Reflector Clamp

Reference: GCX-REFLCLAMP

- For mounting reflector panels on stand
- Metallic spigot receiver 5/8"
- Suitable for baby stands w/ 16mm spigot
- Plastic grip with strong spring mechanism

Product description:

The Reflector Clamp is a suitable accessory for easily attaching a reflector panel or a background to a light stand with 16 mm spigot.

The clamp features a plastic gripping jaw with sturdy spring mechanism to hold the reflector panel in place. The simple "pull and release" system can be effortlessly handled to attach the reflector or the background.

The 5/8" metallic spigot receiver of the clamp mounts on a standard baby stand with 16 mm spigot.

- Dimensions: 5.5 x 7.5 cm
