

# Grip Head LD - black

Reference: GGX-GRIPHEALDB

- Jaws diameters: 25/22/19/16/13 mm
- Sturdy cast aluminum body
- Non-slip friction pad with tooth design
- Large sized locking handle for maximum torque
- Anti-slip handle cover
- Fit short and lock neck 16mm spigots

## Product description:

Inspired from the classic grip head design, the new version distinguishes itself by the larger mounting jaws diameters.

Made entirely from die cast aluminum with black finish and larger locking handle with anti-slip surface, the Grip Head LD meets various requirements in any studio. The T-handle provides precise and easy control of the grip.

The toothed friction pad surface ensures a firmly grip and a precise position with non-slip effect.

The grip body is made from solid cast aluminum.

The larger T-handle with anti-slip surface for maximum torque when tighten.

Can be used with a c-stand or baby stand (accommodates both short and long neck spigots using the dual position of the screw-in locking system).

- Jaws diameters: 25/22/19/16/13 mm
- Dimensions: 17 x 9 cm
- Weight: 0.6 Kg

### Product features:

Overall size: 17 x 9 cm

Weight: 0.6 kg

Mounting: Receiver 16mm (5/8")

Material: Aluminum

Color: Black

Grip type: Gobo

Openings: 25/22/19/16/13 mm
