Product description:

Double Grip Head with non-slip grip handle made of cast aluminum.

This double grip head is designed to work with boom rods and mount lights, light modifiers, scrims, flags, cutters, and other lighting accessories onto light stands.

Versatile accessory, provides the flexibility of a second grip head allowing hundreds of uses including doubling up scrims and flags.

The aluminum friction pad with toothed surface ensures a firmly grip and a precise position.

The grip body is made from solid cast aluminum.

Larger T-handle with anti-slip surface for maximum torque when tighten.
