Product description:

Softbox Kit designed for CineFLEX "L" to soften the shadows.

Includes: softbox tent with silver interior, removable front diffusion and honeycomb grid.

This softbox kit can be used along with the CineFLEX "L" panel in three different

configurations:

- use only the softbox tent to increase the light output by almost 20% and reduce the side spill
- add the front silk diffusion to obtain a large soft light source and smooth shadows
- add the front honeycomb grid to obtain a directional soft light
