

6m Extension Cable for CineFLEX RGB

Reference: LLA-EXTCABFLEXRGB

- Extension cable for CineFLEX RGB
- Adds between power controller & lamphead
- Length: 6m

Product description:

Extension cable for CineFLEX RGBW LED mats which allows to increase the distance between external power controller and fixture's lamphead.

Especially useful when mounting the CineFLEX in tight spaces or when there is a need to

control the CineFLEX from a longer distance than the standard 1.5 m cable length can reach. Adding this extension will increase the total cable length to 7.5m.

- Extension cable length: 6m
- 8 cores cable
- Dost not fit CineFLEX Bi-Color
