

Extension Cable 6m for CineFLEX RGB

Reference: LLA-EXTCABFLEXRGB

- Extension cable for CineFLEX RGB
- Adds between power controller & lamphead
- Length: 6m

Product description:

Extension cable for CineFLEX RGB LED mats which allows to increase the distance between external power controller and fixture's lamphead.

Especially useful when mounting the CineFLEX in tight spaces or when there is a need to control the CineFLEX from a longer distance than the standard 1.5 m cable length can reach. Adding this extension will increase the total cable

length to 7.5m.

- Extension cable length: 6m
- 4 cores cable

Product features:

Overall size: 6m

Dedicated for: CineFLEX RGB
