Product description:

The softbox kit designed for CineLED EVO "S" panels includes: softbox tent with silver interior, removable front diffusion and honeycomb grid.

This softbox kit can be used along with the CineLED EVO "S" LED panel in three different configurations:

- use only the softbox tent to increase the light output by almost 20% and reduce the side spill
- add the front silk diffusion to obtain a larger soft light source to smooth the shadows
- add the front honeycomb grid to obtain a directional soft light
