

# Honeycomb Grid for Studio Cool 6x55W

Reference: LFA-HGRIDST6X55

- Metallic Honeycomb grid for Studio Cool 6x55W
- Reduces the light spill, narrows the beam angle
- Minimal impact on the brightness value
- Easily slides in dedicated accessory slot

## Product description:

The metallic honeycomb grid for Studio Cool 6x55W offers a convenient way to control the light beam of the fixture.

The grid, which slides into the dedicated accessories slot of the studio panel, can be used to reduce the spill and narrow the beam angle maintaining a soft light output.

The honeycomb grid provides directional control over the light beam with minimal impact on the brightness value.

- Material: aluminum
