

Pole Operated Yoke Bar Studio Cool 6x55W

Reference: LFA-YBPOST6X55

- Two axis pole operation for Studio Cool 6x55W
- Adjusts the lamphead orientation (pan & tilt)
- Strong metal frame design

Product description:

Metal yoke bar for Studio Cool 6x55W for two axis operation of the fixture using a pole rod.

Allows for easily adjusting the lamp head orientation (pan & tilt) from the floor when the Studio Cool is mounted high above, typical for studio setups.

The orientation axis are color coded for quickly identifying the desired moving direction.
