

Swiveling Pipe Clamp 28 & 16 mm - HD

Reference: GCX-SWPIPECL150

- Fits on 28 to 78 mm diameters
- For hanging on pipes or truss systems
- Easy pan fixtures by swivel function
- Combo mount: 28mm & 16mm
- Baby 5/8" pin (16 mm spigot & receiver)
- Junior 1 1/8" (28 mm) receiver
- Weight: 1.90 Kg
- Payload: 50 Kg

Product description:

Heavy duty C-Clamp designed to mount studio lighting fixtures on trusses and pipes with a diameter between 28 and 78 mm.

The structure is very solid and robust, made from gravity die casting aluminum ensuring better mechanical properties and a better quality of the product comparing to classic sand casting grip tools.

The clamp allows for mounting both small and large, heavy fixtures having two different attachment sizes: 5/8" (16 mm) spigot & receiver and 1-1/8" (28 mm) receiver.

The swiveling system allows for easy orientation of the hanged fixture without going through the trouble of loosening it from the mount. The swivel system is also equipped with a lock into position mechanism.

This clamp also features a cable lock to secure the junior 28 mm pin of the fixture when mounted and prevent an accidental loosening.

The load capacity of the clamp is up 10 Kg on the baby 5/8" (16 mm) attachment and up to 50 Kg on the junior 1-1/8" (28 mm) attachment.

Clamp weight: 1.90 Kg

Product features:

Overall size: 32 x 20 x 7.5 cm
Weight: 1.9 kg
Mounting: Receiver 28mm & Stud 16mm
Maximum payload : 50 kg
Material: Steel alloy
Color: Black
Grip type: Clamp
Openings: 28-78 mm
