

# Spigot Adapter 28 mm to 16 mm w/ Swivel Pin

Reference: GAX-K11091

- Swivel joint for fine-tuned orientation
- Dual mount: 28mm stud & 16mm receiver
- Fully made of chromed steel
- Large handle for firm locking into position

## Product description:

Swivel adapter from spigot 28 mm stud (or 16 mm female) to spigot 16 mm pin, also known as "swivel baby pin 28 to 16 mm" or "EZ Grip Finger"

One end has a 28 mm spigot stud with 16 mm female receiver and a locking screw so it can be connected on both mounting standards (into a 28 mm spigot receiver or over a 16 mm stud). On the other end has a long neck spigot 16 mm baby pin.

Completely made from chrome-plated steel for high strength and rust free.

The swivel joint has a tilting angle from  $-45^{\circ}$  to  $90^{\circ}$  and  $360^{\circ}$  rotation allowing for a fine-tuned orientation of the mounted lighting fixture or accessory.

The large tightening handle with anti-slip cover combined with the ribbed swivel ball head ensure a secure and firm lock into position.

- Spigot 28 mm length: 60 mm
- Spigot 16 mm length: 70 mm
- Weight: 790 g

## Technical Specifications:

## Grip &amp; Mounting

Grip type	Adapter
Mounting	Stud 16mm & Stud 28 mm with receiver 16mm
Overall size	N/A
Color	Chrome
Material	Stainless steel
Weight	N/A
