

# Spigot Adapter TVMP - Bale Block

Reference: GAX-KB16

- TV to motion picture spigot adapter
- Mount theater or TV lights on stands
- Dual mount: 28mm stud & 16mm receiver
- M12 thread with screw & washer
- Solid steel chrome plated

## Product description:

This spigot adapter allows to make compatible the theater or TV lighting fixtures with motion picture industry mount.

Install this spigot adapter on to the yoke bar of TV type lighting fixture and mount it on baby / junior light stands using the 16 mm spigot receiver or into a combo / senior stand using the 28 mm spigot stud.

The spigot has an M12 thread on top and comes with a 30 mm M12 screw with washer.

Dual locking position for handle to fit multiple versions of spigot 16 mm.

By removing the locking handle the spigot transforms from a 16 mm receiver into a 28 mm stud.

Common used for mounting PAR CAN fixtures on light stands.

- Made from chromed steel
