

Osram Dulux L 2G11 55W 5400K

Reference: LFP-OSR2G11954

- For Studio Cool line, D-Lite 400
- Product code: 954 (Dulux L)
- Power: 55W watts
- Output: 3000lm
- Color temperature: 5400K
- C.R.I > 90RA

Product description:

Fluorescent lamp, 4 pin.

- Manufacturer: Osram
- Product code: 954 (Dulux L)
- Power: 55W watts

- Voltage: -
- Output: 3000lm
- Color temperature: 5400K
- C.R.I > 90RA
- Average life time: 8000h

Dulux L lamps are specially designed for television studio lighting. They provide high lumen packages and offer excellent color stability, even when dimmed down to 50%.

The special phosphor allow them to seamlessly blend in with the light from other tungsten (warm) or metal halide (daylight) lamps on the set.

Key features:

- two colour temperature version to match both tungsten halogen and metal halide light
- high lumen output
- excellent color rendering
- dimmable with good color stability (require dimmable ballast)
- long service life, average 8000hrs
- offers a soft and diffused light
- strongly reduced ambient temperature compared to tungsten light sources
- relatively lower power consumption, eliminating the need of heavy duty power cables

Compatible with the following fluorescent lights:

- Cinelight Studio Cool 2x55W / 4x55W / 6x55W
- Cinelight D-Lite 400
- Arri Studio Cool
- Kino-Flo ParaZip
- Kino Flo ParaBeam
