Reference: PAX-PSHOLDVLOCK

- Attaches power adapter on fixture's body
- Avoid problems with cables and connectors
- Fits common sizes AC-DC power adapters
- Compatible with all V-Mount plates
- Size: 135 x 65 mm

Product description:

Universal AC-DC power supply holder with V-Lock mount helps to attach common power adapters to a lighting fixture's body fitted with V-Mount plates.

Eliminates possible damages on cables and connectors when leaving the power adapter hanged by cable when the fixture is mounted on light stands.

Fits common models and sizes of AC-DC power supplies / adapters found on LED lights.

Can work also on other devices equipped with Sony V-Lock mount such as on-field monitors, cameras, recorders.

The power supply is secured with two adjustable Velcro straps.
