

External Power Supply 100-240V to 7.4V

Reference: PAX-ADAPTAC2NPF

- External power supply adapter for CamLED
- For SONY NP-F type batteries and NP-L
- Power input: AC 100V-240V / 50-60Hz
- Power output: DC 7.4V - 2000 mAh

Product description:

External power supply adapter for camera LED lights which use SONY NP-F and NP-L type batteries.

Can be used to power a LED light when the dedicated batteries run out of power and an external power source is available (wall power socket).

Also suitable as a permanent power supply for LED lights which are used in studio environment and need to run for a long period of time.

- Power input: AC 100V-240V / 50-60Hz
- Power output: DC 7.4V - 2000 mAh
