- Includes front diffusion & soft grid
- Detachable front diffusion for smooth shadows
- Additional soft grid for directional light output
- Easily folds for storage
- No mounting hardware needed
- Softbox size: 90 x 60 x 28 cm

Product description:

The softbox kit for CineLED SkyHUE "L" is designed to further increase the light aperture.

Includes: softbox tent with silver interior, removable front diffusion and additional soft grid.

The detachable front diffusion silk helps to smooth the shadows and create an even larger and softer beam field.

The additional soft grid attaches in front of the softbox to provide directional light control.

The softbox doesn't require any frame or mounting hardware, simply pull the elastic base over the CineLED SkyHUE panel and secure it over using two Velcro back straps.

All the softbox components are easy to fold, assemble and transport.

Dimensions: 90 x 60 x 28 cm
