

Maxi Spacelight 3000 watts - 3 banks

Reference: LTS-SPACELIGHT3KPAR

- Power: 3000W
- Lamp socket: GX16d Mogul PAR64
- Fixture height: 27 cm
- Diameter: 55 cm | Total weight: 8.9 Kg
- White diffusion silk skirt height: 60 cm
- Black opaque silk skirt height: 75 cm
- Chinese lantern look tungsten soft light

Product description:

New Maxi-SpaceLight 3KW with PAR lamps

The Cinelight Maxi Spacelight 3000W features three PAR 64 halogen lamps disposed in a circular pattern on a similar structure to conventional Spacelight fixtures. This new upgraded version combines the well-known configuration of a classic Spacelight with the benefits of the PAR lamps.

Versatile Chinese lantern look fixture

The Maxi Spacelight 6000W can be used in hanging position like any conventional Spacelight using the included chains or can be mounted on a light stand using the included yoke bar with 28 mm stud.

This Maxi Spacelight 3K is configured just like the classic version, with lamps pointing down in a white diffusion silk cylinder. At the bottom of the silk cylinder is a round diffusion ring to which a diffusion material or gel can be clipped. The white silk skirt can be used for a multi-directional Chinese lantern look. Also, the included black skirt can be used to direct the light output downward and create a soft light pool. When used hanged as Space Light it is recommended to install wide beam (flood) PAR64 lamps.

Selectable light beam & power

The spread of the light beam can now be controlled by installing various models of PAR 64 bulbs with built-in reflectors that disperse or intensify the light beam, depending on the needs. Also the light output can be adjusted using three toggle switches, one for each lamp. Just turn on the exact number of lamps to get the desired amount of light. To further increase the options, an external optional dimmer can be used to control the light output as needed.

Studio & location usability

The Maxi Spacelight 3000W it is commonly used to fill out large-area scenes like chroma key / green screen studios, infinity white cyclorama studios or infinity black studios (when the black skirt it used to retain the side light spill and create a directional downward coned light).

Key Features:

- 3 x PAR 64 lamps disposed in a circular pattern
- individual toggle switches for each lamp
- wide range of light beams (from narrow-spot to wide-flood) depending on the lamp type
- dimmable using an external dimmer pack
- can be used hanged by chains
- includes white silk skirt with bottom diffusion ring and black skirt
- the lamphead is equipped with legs for easy storage

Package Content:

- 1 x Maxi Spacelight 3000W head
- 1 x hanging chains
- 1 x black skirt
- 1 x white skirt
- 3 x support legs

Technical Specifications:

Tungsten - Flood

Beam type	flood
Rated power	3000 watts
Voltage input	100-240V 50 / 60 Hz
Lamp type	PAR64
Lamp socket	GX16D
Color temperature	3200K
Beam angle	180°
Photometrics	N/A
Yoke mount	Spigot 28mm pin
Housing color	Black
Housing material	Metal
Power connector type	CEE 2P+E
Power cord total length	3.5 m
Lamp head dimensions	55 x 82 cm
Lamp head weight	8.9 kg
