

# Maxi Spacelight 6000 watts - 6 lamps

Reference: LTS-SPACELIGHT6KPAR

- Power: 6000W
- Lamp socket: GX16d Mogul PAR64
- Fixture height: 27 cm
- Diameter: 66 cm | Total weight: 12.1 Kg
- White diffusion silk skirt height: 100 cm
- Black opaque silk skirt height: 120 cm
- Chinese lantern look tungsten soft light

## Product description:

## New Maxi-SpaceLight 6KW with PAR lamps

The Cinelight Maxi Spacelight 6000W features six PAR 64 halogen lamps disposed in a circular pattern on a similar structure to conventional Spacelight fixtures. This new upgraded version combines the well-known configuration of a classic Spacelight with the benefits of the PAR lamps.

## Versatile Chinese lantern look fixture

The versatility of the Maxi Spacelight 6000W is given by the dual mounting option meaning it can be used both in hanging position like any conventional Spacelight or mounted on a light stand same as Maxi Brute / Dino Lights.

This Maxi Spacelight 6K is configured just like the classic version, with lamps pointing down in a white diffusion silk cylinder. At the bottom of the silk cylinder is a round diffusion ring to which a diffusion material or gel can be clipped. The white silk skirt can be used for a multi-directional Chinese lantern look. Also, the included black skirt can be used to direct the light output downward and create a soft light pool. When used hanged as Space Light it is recommended to install wide beam (flood) PAR64 lamps.

## Selectable light beam & power

The spread of the light beam can now be controlled by installing various models of PAR 64 bulbs with built-in reflectors that disperse or intensify the light beam, depending on the needs. Also the light output can be adjusted using three toggle switches, one for each lamp. Just turn on the exact number of lamps to get the desired amount of light. To further increase the options, an external optional dimmer can be used to control the light output as needed.

## Studio & location usability

The Maxi Spacelight 6000W it is commonly used to fill out large-area scenes like chroma key / green screen studios, infinity white cyclorama studios or infinity black studios (when the black skirt it used to retain the side light spill and create a directional downward coned light).

## Key Features:

- 6 x PAR 64 lamps disposed in a circular pattern
- individual toggle switches for each lamp
- wide range of light beams (from narrow-spot to wide-flood) depending on the lamp type
- dimmable using an external dimmer pack

- can be used hanged by chains
- includes white silk skirt with bottom diffusion ring and black skirt
- the lamphead is equipped with legs for easy storage

### Package Content:

- 1 x Maxi Spacelight 6000W head
- 1 x yoke bar with 28 mm stud
- 1 x hanging chains
- 1 x black skirt
- 1 x white skirt
- 3 x support legs

## Technical Specifications:

## Tungsten - Flood

Beam type	flood
Rated power	6000 watts
Voltage input	100-240V 50 / 60 Hz
Lamp type	PAR64
Lamp socket	GX16D
Color temperature	3200K
Beam angle	180°
Photometrics	N/A
Yoke mount	Spigot 28mm pin
Housing color	Black
Housing material	Metal
Power connector type	CEE 2P+E
Power cord total length	3.0 m
Lamp head dimensions	66 x 145 cm
Lamp head weight	12.1 kg
