

Maxi Brute Nine Light 9000 watts

Reference: LTO-MAXIBRUT9KW

- Power: 1000W - 9000W max
- Voltage: 100V-250V compatible
- Lamp socket: Mogul end prong PAR 64
- Power plug: 2P+E type 64 / 63A-6H 200V-250V
- Weight: 21 kg
- 9 toggle switches allow total control over light output
- Focusing and light output vary by bulb type

Product description:

The Cinelight MaxiBrute Nine-Light 9KW is mainly used for lighting large areas in television and film productions.

The high intensity output of this fixture allows a minimum number of units for the required lighting level.

Key Features:

- accepts different bulbs with built-in reflectors that disperse or intensify the light beam emitted from the heads

- may be used as a hanging, grid or pipe mounted fixture, or mounted on a combo / senior stand
- pivoted three globe modules permit variable beam coverage
- nine toggle switches allow total control over light output
- 100V-250V compatible
- power : 1000W - 9000W max
- socket (lampholder): Mogul end prong PAR 64
- power plug type: 2P+E type 64 / 63A-6H 200V-250V
- focusing and light output vary by type of bulb used

Product features:

Rated power: 9000 watts

Beam type: flood

Voltage input: 100-240V 50 / 60 Hz

Color temperature: 3200K

Beam angle: According to lamp model

Photometrics : According to lamp model

Power connector type: CEE 2P+E

Power cord total length: 7.0 m

Yoke mount: Spigot 28mm pin

Housing material: Metal

Housing color: Black

Lamp type: PAR64

Lamp socket: GX16D

Lamp head weight: 20 kg

Lamp head dimensions: 98 x 100 x 24 cm
