Product description:

This studio arm with dual 16 mm spigot pins is designed to be used as a side arm when clamped on a light stand's riser column or as a drop arm when hanged by a truss or pipe grid system.

The coupler clamp can be quickly attached on round pipes with diameters between 35 to 52 mm.

The length of the arm is 39 cm and is made of chrome plated steel, supporting a payload of up to 15 kg.

The length of the two opposite spigot 16 mm (5/8") baby pins is 75mm and the pins have a knurled neck design to improve the gripping of the attached studio equipment.
