- Payload: 10 Kg
- Maximum height: 15 cm
- Low profile floor stand
- Removable 16mm spigot, 23 mm receiver
- Dense rubber wheels with bearings
- Sturdy base, one piece thick metal cast

Product description:

The runway stand base is a very low profile roller stand designed to work with various lighting fixtures or studio accessories of various sizes and weighting up to 10 kg.

The base is equipped with a removable short stand column with 16 mm spigot pin on top.

The solid base part consists of one piece thick metal cast that is sturdy enough to sustain heavy loads (up to 10 kg).

The dense rubber wheels ensure a smooth and silent rolling on most studio surfaces.
